  - subsection 2
  - subsection 3

Flux is a modern style beamer presentation. This is an adaptation for the visual identity of ECT-UFPA. It is provided as a work in progress version and may suffer from inconsistencies. Sources and complementary information are available at

`github.com/eltonfc/flux-beamer`

Flux provides five different color palettes.

```
\usepackage[style=asphalt]{flux}
```

Flux recommends the use of Roboto or Overpass font and a font size of 9pt.

```
\documentclass[9pt]{beamer}  
\usepackage[sfdefault]{roboto}
```

Flux also implements default typographies.

- Regular
- **Alert**
- **Example**
- *Italic*
- **Bold**

Flux also includes custom footnote integration. For instance, this **element**<sup>1</sup> and this **element**<sup>2</sup> provide a footnote.

---

<sup>1</sup>Footnotes are notes placed at the bottom of a page. They cite references or comment on a designated part of the text above it. For example, say you want to add an interesting comment to a sentence you have written, but the comment is not directly related to the argument of your paragraph.

<sup>2</sup>Footnotes are not just for interesting comments, however. Sometimes they simply refer to relevant sources – they let your reader know where certain material came from, or where they can look for other sources on the subject.

## Items

- Cats
- Dogs
- Birds

## Enumerations

1. First
2. Second
3. Last

## Descriptions

Apples Yes  
Oranges No  
Grappes No

---

# Flux diagrams

Bloc diagram example from **texample.net**

## Binary Softmax classifier

$$\sigma(\sum_i w_i x_i + b)$$

## Loss function

$$L_i = -\log\left(\frac{e^{f_{y_i}}}{\sum_j e^{f_j}}\right)$$

cross entropy

This is a plain frame.
